The right edge of the strip features a series of dark, circular or oval-shaped marks, which appear to be the binding elements (staples or stitches) of the book. The main body of the strip is a light, off-white color with some faint, vertical creases and minor discolorations, suggesting it is a piece of aged paper. No text or other markings are visible on this narrow section.

The best and safest way to increase the appetite, assist digestion, cause the food to assimilate properly, and the absorbents to take up nourishment, induce full and regular evacuation, produce easy expectoration, and stop decay of the lungs, heart, liver, urinary and digestive organs, is by using Brown's Iron Bitters. While in South Carolina recently we called at J. B. Brown's Marble Works and took a look through the working departments of the establishment, and we were surprised to see such a vast amount of work being done in his line of business, such a great variety of headstones and fine monuments of the most beautiful and artistic styles, all so handsomely and tastefully finished by his skilled and experienced cutters, sculptors, engravers, carvers and polishers. We asked the prices of some of his beautiful Italian Marble Monuments and were surprised to find them so remarkably cheap, and we asked him how it was that he could sell at such reduced prices? He said: "I buy my marble by the car-load at the quarries in Vermont, and my Italian marble from first hands in sea coast cities, hence by paying cash I get a good discount and reduced rates in freights by getting it by the car-load and propose to let my patrons have the benefit of these advantages." We feel satisfied from his prices that he is doing that most assuredly.

Mr. B. B. Bruce, of Cleveland, O., writes: "I felt generally unwell. Not desiring to get into the clutches of some rapacious doctor, I stepped into a drug store and inquired if they had a remedy that would cure anything and everything. The clerk promptly handed me a bottle of Brown's Iron Bitters. I said, 'Is it good for dyspepsia?' He replied, 'There's nothing better.' I said, 'My urine isn't just the right color. I guess my kidneys are out of order.' 'Just the thing,' said he, 'for kidney disorders; you will find it strengthens all parts of the body, and very refreshing to the mental faculties.' 'Just the thing I want,' thought I, and it suited my complaint precisely. I never before believed in cure-alls, and now I make Brown's Iron Bitters the only exception, for I really believe it will relieve any disease that human flesh is heir to."

A brace of good cigars is a blessing which seldom enters an editorial den; but it did strike this office lively yesterday morning. A friend from the country did it. We thank him. Some more do us that way. It is so seldom we are blessed with a treat that the Senior editor has forgotten how to smoke gracefully. Smoking is an art, a fine art; but he can't do it that way. The Junior smokes gracefully, very gracefully. Always give him the cigars if you want them smoked in style. The Senior will take all the pepper and potatoes and things. He will marry soon, it is thought, and will need them as he then contemplates house keeping and the usual et cetera. But the Junior does look so pleasing with the smoke of a good cigar floating among his dark mustache and a mustache always adds hugely to a cigar. The Senior has no mustache; he has struggled hard to raise one but can't. Pity him. But don't forget that he likes vegetables and fossils. Send them to him. Also he loves stuffed snakes and frogs and "such." We have presented the case fully and fairly; we leave it with you. Act upon the advice we give you and you will be happy.

Her brow relaxed, her eyes sparkled, her lips smiled and the injury was soon forgotten.

What Tom Moore Said.

"Wrinkles are democratic and flatter nobody." The same may be said of all blemishes of the skin, whether caused by sickness, age or accident.

Glenn's Sulphur Soap will at least retard the time when wrinkles make their appearance. It gives a pearly aspect to the skin which cannot be distinguished from the natural hue of a pure blonde complexion. Beware of counterfeits. See that C. N. Crittenton, Proprietor, is printed on each packet, without which none is genuine. Sold by druggists and fancy goods dealer.

The G. B. for G. B.

Centertown, Ky., Oct. 2, 1882.

Editor Herald: As I wish to make a few remarks to the public, I have concluded to do so through your paper. Having noticed a piece in the last week's HERALD, from Centertown, Ky., by G. B. that detailed the news of this neighborhood so fluently, I could not help being interested in it. I do not know who G. B. is, perhaps George Brown, in some way connected with Lyman Brown, of New York, for has been in time past. I think he must have some notion of locating at this point to practice medicine, as he wishes to impress upon the mind of the public that there is no physician here. I for one beg leave to differ with the French gentleman, if gentleman he be, but I must leave that for others to say. I have a doctor at this place, one that has been tried for about thirteen years, and has made a host of friends, as a physician, and as a first-class gentleman. Whether he has a diploma or not, he has gained his honor by his practice and manners. Dr. Sanders is an honest man, and other good physicians that have consulted with him, recommend him as being well informed, and why his reputation as a physician was thus assailed I am not able to say, unless the assailant has experienced some trouble in keeping

the doctor from collecting his just dues of said assail
